

Connector Cleaner Cassette

OPTIFab's fibre optic connector cleaner utilises a specially formulated dry cloth for thorough and efficient cleaning of fibre optic end-faces. It eliminates the need for hazardous cleaning fluids which can leave a residue.

The cloth is extremely effective in removing grease, dust and other contaminants.

FEATURES

- Suitable for cleaning tasks in factories and field applications
- Environmentally friendly
- Achieves high quality cleaning without alcohol or other solvents
- Replaceable cleaning cassette
- An ideal tool for cleaning connector faces
- Specifically designed to clean ST, SC, FC, SMA D-4, DIN, and Diamond connector faces

FERRULE

φ2.5mm φ1.25mm
