

## MTP/MPO 4-Slot Cassette Open Panel

Optifab's New Rack Mount 19", 1U Fibre Optic Open Port Panel is an efficient space saving Panel, offering 4 open Ports, which can be loaded with MTP/MPO Cassettes, Fibre Modules, or for Copper applications, an RJ CAT6/CAT5e 4-port Module.

The Panel offers a series of integrated cable retention lugs on the back plane, which helps secure data cables. The unit is robustly constructed from 16-gauge cold rolled steel, with powder coat finish.

### FEATURES:

- High density Panel, supporting 4 x Cassettes, with a combined fibre capacity of 96-fibres.
- Each Cassette has a capacity of 24-fibres.
- All Cassettes are pre-terminated.
- Cassettes can be configured with 2 x 12-fibre MTP/MPO, or a single 24-fibre MTP/MPO Circuit.
- Simple assembly and installation, Cassettes are mounted to the Panel separately.
- Remaining open ports can be blanked off.
- Dimensions = 440x190x43mm.
